WELCOME *to* HULL

 I'm Dave, the Vice-Chancellor of the University of Hull.
I'm delighted that you're thinking of studying here, and I hope this is the start of your journey with us.

Founded in 1927, Hull is one of the oldest universities in England. We have a long-standing reputation for delivering life-changing research, excellent teaching and successful outcomes for our students.

Recently, we were rated Gold in the Teaching Excellence Framework 2023 (TEF) – this is the highest possible rating for teaching quality and student success. We're an inclusive, progressive and supportive University: any student, from any background or walk of life, can thrive here.

We're tackling some of the big challenges facing humanity. Our academics are research leaders in clean energy, flood resilience, cancer, wound care, and the fight against modern slavery. Their forward-thinking, research-led approach feeds into everything you learn.

A degree from Hull is a hallmark of quality. An education that prepares you for shaping your own future, as well as the world around you. I hope you take the chance to visit us at an Open Day soon, and I look forward to welcoming you to our beautiful campus.

Professor Dave Petley
Vice-Chancellor

Unsame old story.

Since 1927.

Expect academic excellence and the chance to play your part in tackling the big issues challenging humanity – many of which are banging at our very door. Join a University with a proudly progressive history and up-to-the-minute facilities.

We're writing the future together. Always have, always will.

A future of making history

As one of England's oldest universities, we'll always look back on our past with pride, but we're forever moving forwards. Exploring new and better ways to live and learn for the benefit of humanity's shared future.

The choice of generations of *changemakers*

The University of Hull was founded in 1927 – originally as University College Hull – thanks to a financial gift from local philanthropist and entrepreneur, Thomas Ferens. The foundation stone was laid the following year by the Duke of York, later King George VI, and we opened our doors to 39 students. We've come a long way since then.

Our motto, *Lampada Ferens*, translates as 'carrying the light of learning'. Over the years, we've shared this light with generations of learners. We've illuminated some of the darkest issues facing the world – from slavery and social injustice to cancer and climate change.

An elite education for the *many*

Our Royal Charter says our mission is to:

“...advance education, scholarship, knowledge and understanding by teaching and research, for the benefit of individuals and society at large.”

We believe who you are or where you're from shouldn't decide how far you can go. At Hull, it's more about *what* you know than *who* you know. And everyone is empowered to achieve in their own way.

A degree from Hull is both a hallmark of quality and a badge of honour. A time-trusted education that prepares you for doing what's right and true: for you, for society, for the world.

Change the world, or change *your* world?

You're free to do both here. From life-savers to Prime Ministers and Nobel Prize winners to Academy Award regulars, our alumni have changed the world throughout our almost 100-year history. And now it's *your* turn.

Choose Hull, and together we'll make change happen.

Open Days

SATURDAY 12 JULY 2025 | SATURDAY 11 OCTOBER 2025
SATURDAY 15 NOVEMBER 2025

Our doors are always open to *unclosed* minds. So whoever you are, wherever you're from and wherever you want to go, we'd love to meet you. Book your visit now, and discover how one day at Hull can change *every* day.

- See our beautiful single-site campus in person
- Explore our city's hidden gems
- View our modern accommodation, and imagine what it's like to live here
- Chat one-to-one with our lecturers and students

Rotterdam – 12 hours overnight

Our teaching is worth its weight in *gold*

Hull is rated Gold in the latest Teaching Excellence Framework (TEF). The highest possible ranking for teaching quality and student success.

What makes us a TEF Gold university?

Excellent teaching

Over two-thirds of all our teaching staff have credentials of excellence in teaching and educational leadership through Fellowship of the Higher Education Academy. And our degrees go beyond gaining knowledge. They develop you as a whole student – a whole *person* – so you're ready for your future when you graduate.

Excellent experience

You join an inclusive, empowering, progressive and supportive community where any student, from any background or walk of life, can succeed. Here, students and scholars work together to think differently in defiance of traditional academic barriers and conventions.

Excellent outcomes

All thanks to our real-world curriculums, paid internal and external internships, and authentic assessments that focus less on exams and more on testing the skills employers are actually looking for.

Gold

We're tired of bad news. So we're doing some *good*.

We're research leaders in renewable energy, flood resilience, cancer, palliative and wound care, mental health and addiction, knife crime, and the fight against modern slavery.

Our research is helping to build the largest wind farms in the world. It's also helping students build successful careers in growth sectors like AI, flood risk management, social justice and renewable energy.

Tired of bad news too? Join us on the frontier of humanity's future.

Unlocking the floodgates to flood resilience

Our research has shaped UK national flood policy and investment for over 15 years, helping to protect hundreds of thousands of homes. As a key partner in the Living With Water project, we're continuing to reduce flood risks, and help people recover more quickly from devastating flood events.

How do we stand up to modern slavery? Together.

We're advising the UK Government on tackling exploitation and, through the Humber Modern Slavery Partnership, we work with our partners and regional police forces to protect human rights. Together, we're helping to prevent organised crime gangs from exploiting people, and bringing the perpetrators of modern slavery to justice.

Is AI humanity's friend or end? It's up to us to decide.

We've recently opened our Centre of Excellence for Data Science, Artificial Intelligence, and Modelling (DAIM). DAIM takes a multi-faceted approach to the biggest technological opportunity and challenge of our age: how to responsibly harness AI for the benefit of humanity.

Propelling fossil fuels into the past

Our researchers are working with the offshore wind sector to secure a brighter, carbon-neutral future. We're improving wind turbine models, driving down cost and accelerating the adoption of offshore wind power, reducing our reliance on fossil fuels and moving closer to net zero.

Taking a patient approach to improving healthcare

We're helping to reduce hospital admissions and visits to A&E, as well as improving health outcomes for life-threatening diseases. Our researchers are working to detect cancer earlier, speed up referrals, improve access to care, and help more patients survive.

We see those who feel invisible

Through inspiring creative arts projects, we support and showcase underrepresented voices. Our award-winning, co-produced photography exhibition, *Homelands*, explored Sierra Leone's rich culture and heritage, helping to increase the visibility of Hull's African and Afro-Caribbean community.

Since 1927, we've been passing on our knowledge to generations of learners. One reason we've thrived for so long is that we're always looking ahead. Over the years, we've evolved our campus to include everything you need to live, study and socialise. We invest in *our* future, so you can create *yours*.

500+

OPEN ACCESS PCS,
PLUS FLEXIBLE
STUDY SPACES

1 million+

BOOKS AND
JOURNALS, PLUS
EXTENSIVE DIGITAL
RESOURCES

Knowledge base

The seven-storey Brynmor Jones Library is a superb learning space. As well as over a million books, journals and digital resources, there are more than 500 open access PCs, plus bookable rooms for both group work and quiet study.

What a good place to be

Some places just have a feeling about them. An ambience. A character. When you step on to our campus, you'll know this is where you're meant to be.

Red brick

Hull's one of the oldest universities in the country. Home to 1,000+ trees, rose-filled lawns, and ivy-clad red-brick buildings.

Blue steel

Alongside our characterful older buildings, you'll find super-modern structures of steel and glass springing up. New facilities for a fresh generation of minds. Like yours.

Close to home

We've built swish new on-campus apartments for 2,300+ students. WiFi, bills and insurance are all included in the rent, so there's no sudden cost increase during the year.

Sport fit for every body →

A 12-court sports hall, 120-station gym, dance studios, strength and conditioning suite, and floodlit 3G pitches: all on campus, all in one place, and all for you.

2. Prices shown are for the 2025/26 academic year. Our 2026/27 prices are still to be confirmed and are subject to change. For up-to-date info, visit hull.ac.uk/accommodation.

Life starts at the
end of the line.

Hull.

 A hundred years in the making, our University
couldn't have happened *anywhere* else.
A University of its city. Unbreakable.
Irrepressible. *Free.*

Hull is often seen as a place apart. Yet one that plays its part on the world stage. Pushing, performing, punching way above its weight. You mightn't think a city at the end of the line could start so much. You'd be wrong.

This proud port has launched generations of freethinkers and changemakers to the world. All way ahead of their time – at exactly the *right* time. Today's Hull is still a haven for unconventionally brilliant minds.

Maybe there's something in the water here? Well, this is your chance to find out. Dip your toes in and discover our quirks, our culture, our hidden gems. Together, let's explore the possibilities waiting for you around every corner.

All dressed up with *everywhere* to go

Morning, noon and night, there's always somewhere to go and something to do in Hull. In fact, you'll do well to fit everything in while you're here. So we'd better get started. Here are some of the highlights waiting for you...

Day

The Marina

Start the day (or midday) with brunch at Thieving Harry's or Nibble. Pick up a print from FORM or Art & Soul and a houseplant from Plant & Paint. Then shop vintage threads and high-end fashion for less at Poorboy Boutique and 19Point4.

Hepworth's & Paragon Arcade

Pull up at Beasley's for a new pair of Dickies, and browse local authors at J. E. Books in Hepworth's. On the other side of town, you'll find tapas, Asian street food, gooey cookies, famous sausage rolls and posh sarnies inside Paragon Arcade.

Trinity Market

After crate digging at Spin-It Records, you'll be feeling the hunger pangs. So turn the corner and you'll find falafel, gyros, pizza cones, Indian street food, American-style burgers, good honest butties, homemade chocolates, bubble tea and local coffee.

Humber Bridge

It's not quite the Golden Gate, but it's pretty close. A popular spot for professional photographers and casual Instagrammers alike.

The Deep

Who *wouldn't* want to see penguins? One of the UK's biggest and best aquariums is also home to sharks, sawfish and over 3,500 other sea creatures.

Art, music, history

Explore Ferens Art Gallery and the Maritime Museum, both in Queen Victoria Square. Discover old and new vinyl, poetry and prose at Wrecking Ball Music & Books on Whitefriargate. Then follow the Old Town's cobbled streets to our Museums Quarter.

The Avenues: Part 1

Welcome to Newland and Princes Avenue, your second home for the next few years. Thirsty? Grab a brew at DiveHU5, The Barista or Planet Coffee. Hungry? Try brunch at Marla's, lunch at The Greek, or a Moroccan meal at Marrakech.

The Avenues: Part 2

When the sun goes down, our student quarter bursts into life. You'll find a place to call your local right here, whether it's Belgian beers at 80 Days Bier Haus or Caribbean cocktails at Roots Rum Shack.

Live music

Hull has a real knack for discovering musical talent, as you'll soon find out. The New Adelphi Club is legendary. Radiohead, Oasis, Green Day, Fatboy Slim, and The Stone Roses all played there in their early days. The Polar Bear showcases emerging bands on Tuesday nights. While Pave on Princes Avenue hosts its Live Sundays every week.

Clubbing

Asylum is our very own nightclub right here on campus. Spiders on Saturday serves up punk, metal, Motown ... and Pangalactic Gargle Blasters. Social on Humber Street spins pop and soul. Wait, what day is it? Oh, and Jelly! for indie every Thursday at The Welly.

New bars, ye olde pubs

Fancy a quieter night? Try Larkin's on Newland or Atom on Princes Avenue. In Old Town, you've got White Harte, Brain Jar, Blue Bell, Head of Steam, and Lion & Key. Ah, and there's Taphouse on Humber Street too. Hmm, maybe not such a quiet night after all...

Hull Fair

The sights, the smells, the lights and the food. For one week in October, one of Europe's biggest travelling fairs comes to Hull. You do not want to miss it.

Festivals

Humber Street Sesh is the must-play festival for emerging local and out-of-town bands. Pride in Hull is the region's biggest LGBT+ festival. Then there's Freedom Festival: a whole weekend dedicated to art, music and theatre.

THIS IS YOUR STUDENTS' UNION

As a student at Hull, you're a member of Hull University Students' Union (HUSU).

HUSU is here to ensure you feel part of the student community and help you look forward to a bright future. We do this by representing your academic interests and giving you a voice to speak out about the issues that matter to you most.

For students, by students

HUSU is independent from the University and is led by a team of elected Presidents who work full time to represent students' views and to improve University life for all. Anyone can run for President.

You automatically become a member of HUSU when you accept your place, so you're already part of something bigger before you even get here.

HULLUNIUNION.COM

Meet new people, become old friends

Playing sports, joining a society or volunteering are the best ways to find your people. Choose from 50+ sports clubs and 60+ societies, volunteer for good causes, or get involved in student media. And if you can't find what you're looking for, we'll help you start your own student group.

We also offer Support Networks to bring together students from underrepresented groups. These are an excellent way to meet like-minded people and build a community of support, as well as working together to create positive change.

“

Once you enrol at the University of Hull you automatically become a member of Hull University Students' Union which opens up a wide array of opportunities to ensure you make the most of your university experience.

Getting involved in HUSU is the best way to make friends, try new things, find your people and become part of something bigger. We're here to represent both your academic and non-academic interests, and commit to doing this while upholding our core values of being fun, positive, innovative, supportive and inclusive.”

Ejimchi Collins Peter Dumbili

President of Union Development 2024/25

Get together

Student Central is home to our award-winning nightclub and live music venue, which has hosted big names like Paul Heaton, Belle & Sebastian, Scouting for Girls, Kae Tempest, James Bay and Self Esteem. You can enjoy food, drink and live sport at your very own 'Spoons on campus, shop at our SPAR convenience store, and use one of our shared social spaces to relax between lectures.

Get involved

Whether you want to represent other students, influence University policy, or suggest a campaign, we're here to help you make a difference. Through becoming an Academic or Student Rep, or getting involved in our core decision-making body Union Council, you'll get the chance to have your voice heard and make an impact during your time at Hull.

Be supported

HUSU's Advice Centre is a free, independent and impartial service that offers support and representation on issues that can affect students, such as money, housing and academic issues.

Freshers Hull

Freshers Hull offers a diverse range of activities and events for all to welcome you to campus and help you settle into university life.

There'll be a packed programme of events for you to get involved in, helping you to discover all the fantastic opportunities Hull University Students' Union (HUSU) has to offer, make new friends, connect with your peers and get to know the campus and surrounding area.

This is your chance to try new things, discover new places, meet new people, and find out how you can make the most of your time at university.

SPORT AT HULL

Want to play your part? Let's find your *game* first.

When you choose to be a part of sport at Hull, you're carrying the torch for the University, for your team and for yourself. You're also choosing some of the best sport and fitness facilities in the country.

Something for everyone

Whether you want something competitive or just for fun, there are a huge range of clubs and campus sports programmes you can join whenever you like.

- **12-court** sports hall
- **3 bespoke** exercise class spaces
- **120-station** fitness suite
- **4 floodlit artificial pitches** with Sport Pavilion
- **1 Performance Zone** with bespoke strength and conditioning facilities
- **50+ sports clubs** for anyone to join, run by Hull University Students' Union

Talented Athlete Programme (TAP)

We award TAP scholarships to selected high-performing athletes. As well as a cash award, you get a tailored package of support that can include advice and mentoring in sports science, strength and conditioning, physiotherapy, nutrition, lifestyle, and psychology. To find out more and apply, please visit hull.ac.uk/tap.

CAREER OPPORTUNITIES

Thinking about your future? *So are we.*

We don't just exist to teach. We're here to help you prepare for life after university. Whether that's a year studying abroad, a rewarding work placement, or a volunteering role you can't get anywhere else. So by the time you graduate, you'll be well and truly on your way to where you need to be. Where that is, is up to you.

See the world

America, Tokyo, Sweden, Australia: our students have explored them all. Whatever you're studying, you can take advantage of international opportunities – from studying abroad to overseas summer schools and volunteering. So, where will your journey take you?

Discover yourself

When you open yourself up to these experiences, you'll learn so much more than your subject. You'll discover other cultures, other points of view, other ways of living and working. And you'll gain a deeper understanding of who you are, what you love and what you want to do in life.

Get to work

Paid internships, work experience, volunteering: they can all help to boost your CV and make employers take notice of you. We'll help you find the right one so that you graduate with the skills *and* experience to kickstart your career.

Study abroad →

Studying abroad has truly been the most amazing experience.

I couldn't recommend it more! From meeting new people from all over the globe to travelling the world; I loved every second.

Rebecca Lamb-Busby
LLB Law with Criminology

Volunteering →

Seeing killer whales in the wild was such a highlight.

After I finished my exams in May, I moved to the Isle of Mull in the Hebrides to take part in a 4-month volunteer placement with The Hebridean Whale and Dolphin Trust as an Outreach and Research Assistant.

Hannah Lightley
BSc Marine Biology graduate

Work placement →

I left University, and Jaguar Land Rover, as a business-woman.

I worked in Global Product Marketing at Jaguar Land Rover for my placement year. To get a placement with such a big, well-known company was absolutely fantastic. I've learned so much, and it's given me a completely different outlook.

Emily Brown
BA Business and Marketing graduate

If not here, then *where?*

Whatever you're studying, you'll have the chance to gain international experience at Hull. Whether you want to join a summer school in another country, or spend a whole year studying abroad, we can help find the best opportunities for you.

Achieve more

MORE LIKELY TO
GAIN A 1ST OR
2:1 DEGREE¹

Boost your career

MORE LIKELY TO BE
IN GRADUATE
JOBS SIX MONTHS
AFTER GRADUATION¹

Earn extra

MORE LIKELY TO
EARN A HIGHER
WAGE SIX MONTHS
AFTER GRADUATION¹

Why should you study abroad?

For one, you'll make unforgettable memories. But more than that, you'll boost your confidence and your contacts. And you'll gain skills that will make employers take notice of you: curiosity, sociability, adaptability, and intercultural awareness.

Exchanges

Spend a semester or a year at one of our partner universities in Europe, North America, Australia, Canada, Hong Kong, Singapore and South Korea.²

Summer schools

Study a summer course between two to seven weeks at one of our partner universities, and meet students from across the world.

Volunteering

Give back to the local community while you travel. Opportunities include environmental, community build, mental health, and sports development.

[HULL.AC.UK/STUDYABROAD](https://hull.ac.uk/studyabroad)

1. UUKI Go International: Stand Out campaign 2018.

2. Exchange options depend on your department, and are not open to all.

Your guide to degree options

At Hull, it's all about choice. Whether you want to combine two or more subjects, study abroad for a year, or gain hands-on experience as part of your degree, you'll find plenty of options here.

What type of degrees does Hull offer?

Single Honours degree

You study modules from a single subject area.

Combined Honours degree

You study a mix of modules from two or more subject areas.

Integrated Masters degree

You study a year at postgraduate level on top of your degree.

How are degrees taught?

Most of our undergraduate degrees are made up of study units called modules. You'll be assessed after each module, and the average of all your module assessments for the year is your overall result for that year.

Can I pick and choose modules?

Yes, you can. Some of our modules are optional, so you can pick what you study to suit your interests and career goals. And some modules are compulsory – you have to take these. Compulsory modules are essential (to make sure our degrees qualify for relevant accreditation, for example), so they'll never change and you have to pass them.

How many modules will I take?

Usually, you'll take six modules a year: three from the start of term to Christmas, and three more between January and the summer. Later in your degree, some modules – like larger-scale projects or a dissertation – might count as two modules and run for the full year.

Remember...

We're continually adapting and evolving our degrees to meet the changing needs and expectations of our students and employers.

We check that our degrees reflect national benchmarks; that they enhance our students' skills; that they're relevant to you and to your potential future employers; and that they meet the demands of regulatory bodies (for example, to earn accreditations that are essential in some subjects and for some professions).

This means that the information in this guide is correct at the time of going to print. But some of our degrees could still change before you start University. You can find all the latest information on the individual course pages of our website, or through our Admissions team at study@hull.ac.uk.

What extra degree options can I choose?

Foundation year

An extra year of study at the start of your degree. Designed to boost your academic skills and knowledge of your specialist area, and lead into a full degree programme. Fees are exactly the same as undergraduate years, and you can apply for student finance as normal.

To be considered for a four-year degree with a foundation year, you typically need fewer UCAS points than a standard three-year programme. But we look at more than just your grades in your application. Are you a motivated person who has the potential to succeed here? Do you have life or work experience related to the degree? Can you confidently show all this in an essay or an interview? Then we want to hear from you.

Work placement

A full year, a semester or one module in industry or structured work placements. See page 32 to find out more.

Study abroad

Many of our degrees include a year abroad in Year 3. Students on other degrees can apply to spend a trimester, semester or a single module overseas. You can also choose to study abroad over the summer or as an exchange student at one of our partner institutions through our careers team. See pages 32 and 34 to find out more.

Accounting and Finance

Develop an in-depth knowledge of accounting and finance, and get taught by staff with real-world experience. Our accreditations and connections with world-leading brands, and the opportunity to hone your skills in real-life scenarios, put you one step ahead.

- Degrees in **Accounting, Financial Management**, and **Accounting and Financial Management**
- Add a placement year or a year studying abroad to any of these, to make four years in total
- We're among fewer than 2% of the world's best business schools that hold the double crown with accreditations from AACSB and AMBA
- New module options include Portfolio Management and ESG Investing, and Financial Technology (FinTech), which are at the forefront of financial research and practice
- Accredited by the main accountancy and finance bodies: ACCA, CIMA, CIPFA, ICAEW, AIA, CFA and CPA Australia
- Register for ACCA Advantage: an employability programme that connects you to ACCA employers

THANKS TO OUR
ACCREDITATIONS²

OUR BLOOMBERG FINANCIAL MARKETS
LABORATORY OFFERS SIMULATED FINANCIAL
TRADING ACTIVITIES IN REAL TIME. SO YOU
CAN PRACTISE YOUR SKILLS IN REALISTIC
SCENARIOS BEFORE YOU DO IT FOR REAL.

Why study at Hull?

Our professional accreditations give you significant exemptions from essential exams. This means a faster route to professional qualifications, because you graduate already part-qualified and you could start on a higher salary. Plus, thanks to our Authentic Business Learning approach, you're guaranteed hands-on, CV-boosting opportunities along the way.

Where could this take you?

Our graduates have found work with Citibank, Lloyds Banking Group, Fujitsu, Smith+Nephew, and the 'Big Four': Ernst & Young, Deloitte, PWC and KPMG. As well as private, public and not-for-profit organisations.

- Chartered accountant
- Auditor
- Financial or management accountant
- Stockbroker
- Portfolio manager

1. (**Accounting, Finance and Economics**) UK domicile full-time first degree leavers; Higher Education Graduate Outcomes statistics, for the academic year 2021/22, published by HESA June 2024.

2. Our accredited degree offers exemptions from the professional exams of all the major accountancy organisations: ACCA, CIMA, CIPFA, ICAEW, AIA, CFA and CPA Australia.

ACADEMICS TEACH
ON THIS COURSE²

GET EXCLUSIVE ACCESS TO OUR INDUSTRY-STANDARD FACILITIES. HERE, YOU'LL HONE YOUR SKILLS AND PREPARE FOR YOUR CAREER BY USING EQUIPMENT THAT SCIENTISTS USE IN THE BIOSCIENCE, BIOTECH AND PHARMACEUTICAL INDUSTRIES.

Choose **BSc Biochemistry**, and discover the chemistry of life. Be trained by leaders in the field within industry-standard facilities. Learn to apply your biochemical knowledge to provide solutions to some of society's biggest challenges.

- Study what you love, developing specialist clinical or environmental interests
- Core modules in microbiology, biotechnology, cellular biology, genetics, and fundamental and applied chemistry
- Explore protein and metabolic biochemistry, mass spectrometry and proteomics, genetic analysis, and cellular regulation and biotech
- Learn cutting-edge techniques like genetic analysis, mass spectrometry, protein purification, and DNA sequencing
- Carry out research and explore novel scientific concepts during independent research projects, or take our STEM Education Projects module to prepare you for teaching
- Develop transferable skills during workshops, lab classes and your final year project
- Gain industry experience through our long-standing placement programme

Why study at Hull?

Our facilities include a new £200,000 molecular genomics teaching lab, analytical instrument facilities, and mass spectrometry capabilities.

Throughout your course you'll be assessed in a variety of ways including coursework, lab reports and a few exams. We focus on applying your problem-solving skills and knowledge to real-world scenarios.

Where could this take you?

The analytical and lab skills you'll develop here are highly valued by employers in the bioscience, biotech and pharmaceutical industries. Our emphasis on collaboration and problem-solving means you'll graduate with the skills to think and work as a scientist.

- Industrial biochemist
- Clinical researcher
- Analytical or data scientist
- Biotechnologist
- Postgraduate researcher
- Pharmaceutical scientist
- Postgraduate teacher

See **page 78** for our full list of courses available within this subject area.

Award-winning

ACADEMICS TEACH ON THIS COURSE¹

Field Trips

TO PLACES INCLUDING BRAZIL, EGYPT AND MALLORCA²

Biology

LAB SKILLS ARE PART OF THE DNA OF OUR BIOLOGY DEGREE. AND YOU'LL GET TO LEARN THEM USING INDUSTRY-STANDARD EQUIPMENT, SUCH AS OUR £200,000 MOLECULAR GENOMICS TEACHING LAB.

BSc Biology at Hull is all about tackling global challenges – we cover everything from genetic engineering to biodiversity. Guided by our award-winning experts, you'll gain industry-standard lab skills in cutting-edge techniques like genetic analysis, microscopy, DNA sequencing and bioinformatics. This flexible programme lets you specialise and study what you love.

- Specialise by taking a molecular or ecological pathway – or keep your options broad
- Explore the diversity of modern biological sciences – from small-scale molecules to whole ecosystem processes
- Core teaching in genetics, genomics, microbiology, cell biology, evolution, biological diversity
- Options to study metabolism, cellular regulation, ecology, animal behaviour, and conservation – or take our STEM Education Projects module to prepare you for teaching
- Learn to scuba dive during your degree³

Why study at Hull?

Our facilities include a new Advanced Training Lab, supercomputing power for genomic analysis, a 33,000-litre tropical aquarium, and flexible teaching labs supported by technicians dedicated to developing your skills.

We're a small, friendly, supportive group, which includes winners of the Royal Society of Biology's Higher Education Bioscience Teacher of the Year Award. And we incorporate our diverse and globally impactful research into our teaching.

Where could this take you?

You'll graduate with lab and analytical skills that can help solve real-world problems, and open doors to exciting careers that make a difference to people and the planet we inhabit.

FOR TEACHING
SATISFACTION²

"I wouldn't have been able to get into the career I love without Hull. I would wholeheartedly recommend it to anyone wanting a degree that will set you up for work."

Anna Reynard

Biomedical Scientist at Hull University
Teaching Hospitals NHS Trust

The Institute of Biomedical Science (IBMS) accredits our Biomedical Science degree³

Why study at Hull?

You'll learn from practicing biomedical scientists in hands-on laboratory practicals. Here, you'll master the key cellular, molecular, biochemical and microbiology techniques you need to work in pathology labs, industry and research. And you could have the chance to carry out research projects spanning different scientific disciplines. In particular, the Allam Research Building – which houses some of our research laboratories – is a centre for cancer and cardiovascular research.

Where could this take you?

You can work in academic research, the NHS, medical institutions, and education. Some of our graduates also work with local employers such as ConocoPhillips, Reckitt, Smith+Nephew, QC testing labs, and pharmacies.

3. After graduating, you can apply to be a Trainee Biomedical Scientist and complete your HCPC portfolio to become a registered Biomedical Scientist.

Business Management

Hull University Business School is the birthplace of Authentic Business Learning (ABL): our real-life, hands-on, hard-working approach to teaching. Each year you'll take part in projects and collaborations with businesses. It's our unique way of putting you – and your career – at the forefront of everything we do.

- Our ABL approach gives you a solid base of business knowledge, experience and the latest digital skills that employers are looking for
- You're free to choose a business specialism in your second year – or keep your options open
- Specialise in **Human Resource Management, International Business, Marketing, Entrepreneurship, Logistics and Supply Chain, or Accounting and Financial Management**
- Placement opportunities with the likes of BMW, Disney, Sony, and Jaguar Land Rover
- Option to study abroad for a year, a semester or over the summer at one of our partner institutions
- We're among fewer than 2% of the world's best business schools that hold the double crown with accreditations from AACSB and AMBA

Why study at Hull?

From day one, we treat you as a future business professional. Many of our courses have no exams – we support your development through assessments that mirror the skills employers look for, such as business report writing. And we prepare you to navigate and adapt to the latest challenges and opportunities like sustainability and AI. So you'll graduate with the future-proof skills and hands-on experience to enter the dynamic, unpredictable world of business.

Where could this take you?

Our graduates go on to work for businesses such as IBM, Red Bull, Heinz, Morrisons, Next, Rolls-Royce, HSBC, Kellogg's, Nestlé, Asda and Young's Seafood, as well as public and not-for-profit organisations. Want to be your own boss? Give your business the best chance of success with our entrepreneurship pathway.

Computer Sciences

Choose from a range of computing-related degrees, from **Computer Science** to **Software Engineering**, **Games Programming**, **Artificial Intelligence (AI)**, and **Robotics and AI**.

- Gain a solid grounding in the fundamentals before focussing your studies on a specialism
- Options include specialist pathways in AI, Computer Science, Games Programming, and Software Engineering
- Study AI throughout your course – whichever specialism you choose – and learn from research experts in this ever-evolving field
- Learn how robots can autonomously operate in the real world, and study the impact of AI and robotics on society
- Become an expert in how to develop solutions with a range of industry-standard programming languages and tools
- Links to companies like EA, IBM, Sony, Microsoft, and Black Marble
- High-spec PCs, humanoid robots, laser scanning, console dev kits, and the Hull Immersive Visual Environment (HIVE) with VR headsets and 3D immersive cube

TEACH ON OUR
COURSES

Our degrees are
accredited by the British
Computer Society²

Why study at Hull?

Our optional paid placement year will help you learn industry skills and make you more employable. Throughout your degree, you'll develop a portfolio to showcase your skills and professional development to employers. Hull also has many active student-led societies and extracurricular opportunities – including networking events with employers, expert talks, regular game jams, programming competitions, gaming meet-ups and coursework support.

Where could this take you?

You'll graduate with the future-proof skills you need to anticipate and adapt to change in this ultra-fast-moving industry. You could help to develop the latest tech – from driverless cars to drones, space vehicles to technology-assisted wearables. Pursue a career in the video game or mobile app industries, or in the business, financial and public sectors.

Some of our graduates have gone on to work for industry giants such as Sony, Microsoft, IBM, EA, Rockstar Games, Dell, Fujitsu, and Capita.

1. (Computer Science) National Student Survey (NSS) 2024, HEIs only.

2. BSc/MEng Computer Science, BSc/MEng Computer Science for Games Programming, and BSc/MEng Software Engineering only. The BSc degrees meet the academic requirements for full Chartered IT Professional and partial Chartered Engineer status. The MEng degrees fully meet the requirements for both Chartered IT Professional and Chartered Engineer status.

Criminology, Sociology and Professional Policing

Universities aren't *equal* in the way they teach *inequality*. At Hull, we've been standing up to injustice for nearly 100 years. Here, you discover the truths of criminal and social injustice. You investigate the causes and consequences of crime. Then you join us in the search for solutions.

- Degrees in **Criminology**; **Criminology and Sociology**; **Criminology with Forensic Science**; **Criminology with Law**; **Criminology with Psychology**; and **Professional Policing**
- **Criminology** students can apply for a placement with Humberside Police
- No exams in **BA Criminology**, **BA Criminology and Sociology**, and **BSc Professional Policing** – you're assessed using the skills you need for your future career
- **Professional Policing** is designed in collaboration with the College of Policing, and meets all aspects of the Optimised National Policing Curriculum. Former police officers also teach on this course.
- Option to train as a Special Constable⁴
- Access our Crime Scene room, visit prisons, and network with employers at our Careers in Criminal Justice Fair

CRIMINOLOGY
AT HULL

Our Professional Policing degree is
licensed by the College of Policing

Why study at Hull?

We pioneered Criminology over 50 years ago, and have since built an excellent reputation and close links with local and national criminal justice agencies. You'll be studying with research leaders on issues like violent crime, social justice, desistance, prisons and restorative justice, domestic violence, cybercrime, and organised crime and intelligence.

Where could this take you?

Demand for criminologists with insight into the impact of crime on society is higher than ever. Gaining a strong understanding in social justice will also better prepare you for a career in the criminal justice system.

2. (**Criminology**) UK domicile full-time first degree leavers; Higher Education Graduate Outcomes statistics, for the academic year 2021/22, published by HESA June 2024.

3. The qualification does not guarantee recruitment as a police constable. Please check the eligibility criteria for a Police Constable and as a member of the Special Constabulary.

4. **Professional Policing** students only. You'll have the option to apply for the Special Constable training programme through Humberside Police, who will make the final decision on your application.

Drama, Theatre and Performance

This is a place – and a University – with a strong commitment to the performing arts. As one of the oldest Drama departments in the UK, we've shaped the academic study of theatre and performance. At Hull, you not only learn *about* the theatre, you learn on the job – by *making* theatre.

- Choose from **BA Drama** or **BA Acting**
- Join a diverse community that learns on the job in ensemble settings, and creates and performs for a variety of audiences
- Range of theatre-making opportunities each week, from classical to experimental
- Develop your talents as a performer, designer, creative technician, writer or teacher
- Learn how to be a well-balanced theatre maker in specialisms of your choice
- Work alongside Film and Media students to create an acting showreel
- Take part in a range of practice, including two production projects a year, and form a small theatre company in your final year
- Access to the Gulbenkian Centre, a purpose-built theatre with studios and workshop areas

WINNER OF THE NOBEL PRIZE IN ECONOMIC SCIENCES IN 2021, PROFESSOR GUIDO IMBENS STUDIED AT HULL IN 1985/6. HE'S JUST ONE EXAMPLE OF HOW AN ECONOMICS DEGREE AT HULL CAN REALLY TAKE YOU PLACES.

We want everything we teach to have a genuine use in the real world. That's why you won't just examine economic concepts and analytical tools as part of some abstract mathematical theory. You'll explore how economic issues relate to public policy, and how they impact industry, society and people.

- Study topical issues such as digitisation, social inequality, climate change, and financial crises
- Explore everything from individuals' and businesses' microeconomic choices to the large-scale decisions of government and supranational organisations
- **BA Business Economics** focuses on how micro and macroeconomics can help business managers make better decisions
- **BSc Economics** shows you how sophisticated tools are used to apply economic theory to real-world issues
- The **BA** and **BSc** share a common first year, so you can choose to switch direction in the second year
- **BA Politics, Philosophy and Economics** gives you a wider perspective on modern society

Business School degrees have international accreditation from AACSB

Why study at Hull?

Hull has links with major international businesses. Get real industry experience on a one-year placement with the likes of Bosch, BMW, Siemens or Disney, or spend a year with the Government Economic Service or the Office for National Statistics. You can also spend a year studying abroad, or take an internship for half your final year. Back on campus, you can practice trading activities in real time in our Bloomberg Financial Markets Laboratory.

Where could this take you?

With a degree in Economics, you'll have a foundation for a variety of careers. You'll find yourself in demand across all sectors, industries and countries, from private companies like Aviva and Coca-Cola to public-sector employers like the Government Economic Service and the NHS.

OF TEACHING
ENGLISH AT HULL,
SINCE 1928

HULL HAS BEEN CALLED THE COUNTRY'S "MOST POETIC CITY". RENOWNED POETS AND WRITERS FROM ANDREW MARVELL TO PHILIP LARKIN, STEVIE SMITH TO TOM PAULIN, J.R.R. TOLKIEN TO WINIFRED HOLTBY, ALL HAVE TIES TO THE UNIVERSITY AND CITY.

Why study at Hull?

A huge 92.9% of our students are in work or further study 15 months after graduating.³ Be part of our thriving and inclusive creative community – join our English Society and engage with world-leading authors, book clubs and socials. HU Writes provides a platform for performance with termly showcases and student-led podcasts. Design, edit and publish with our in-house magazines, *Document 1* and *Hull Scribbler*. There's also a buzzing local literary scene in Hull.

Where could this take you?

Our English and Creative Writing graduates develop high-level skills in communication, and both analytical and creative thinking that are prized in many professions, and acquire the adaptability to flourish in various careers. With experience of publishing, performing and editing through our student-led opportunities, you'll have an impressive portfolio to showcase to employers.

Film and Media

All our courses teach hands-on skills as well as thought-provoking theory. If you're passionate about film, you'll explore the practical side of filmmaking while studying its history and culture. Or if media is your thing, you can get creative while exploring the relationship between media and society.

- Degrees in **Film, Media and Communication**, and **Media Production**
- In **BA Film**, you'll explore films from across history, continents and genres
- Taught by experts in horror, TV drama, British and Hollywood cinema
- Get access to work experience, bootcamps, masterclasses and visiting speakers
- In **BA Media Production**, you'll learn the creative and logistical skills vital to becoming a professional filmmaker; where you'll develop techniques and knowledge for working in the media industries
- Learn about the opportunities and challenges of the industry, and how to navigate them
- In **BA Media and Communication**, you'll examine the relationship between media and society, and deliver a range of creative projects

BY SPENDING A YEAR
IN INDUSTRY ON
WORK PLACEMENT²

WE TAKE FUN AND GAMES SERIOUSLY. THROUGHOUT YOUR DEGREE, YOU'LL CREATE A PORTFOLIO OF PROFESSIONAL-STANDARD WORK TO SHOWCASE YOUR SKILLS IN GAME DESIGN, GAME ART, GAME AUDIO OR NARRATIVE DESIGN. EXACTLY WHAT YOU NEED TO MAKE EMPLOYERS SIT UP AND NOTICE YOU.

Study under experts who are fans as much as they are academics. People who've worked on BAFTA-winning games and titles for names like Disney and Lucasfilm. We combine hands-on skills with thought-provoking theory to prepare you for a career in this exciting industry and beyond.

- Degrees in **Game Design**, and **Game Design and Creative Writing**
- In **BA Game Design**, you can take part in study trips, visits from guest speakers, game jams and an optional year in industry. You'll create games, 2D and 3D characters and worlds, animations and videos.
- Choose to spend a year in industry getting real-world experience with organisations from small studios to multinationals²
- In **BA Game Design and Creative Writing**, you'll create cutting-edge games and write unforgettable narratives through mastery of a technical skillset and an immersive approach to story
- Access industry-standard facilities and digital media software, including our fully fitted PC and Mac design labs, and the Adobe collection for the creation of 2D graphic designs, multimedia pieces and audio production

Why study at Hull?

If you choose **BA Game Design**, you can take advantage of professional opportunities like the Game Republic Student Showcase: a great chance to show your work to the industry.

If you choose **BA Game Design and Creative Writing**, you'll gain key employability skills for one of the UK's fastest growing creative industries. Creative Writing at Hull is ranked 1st in the UK for Teaching,³ and Student Satisfaction.⁴

Where could this take you?

You'll gain the essential skills required by the games business, as well as transferrable skills that are in demand across the creative industries. And our connections with industry give you opportunities to gain invaluable experience.

- Game designer
- Animator
- UI/UX designer
- Environment artist

Geography, Earth and Environmental Science

The world needs geographers, environmental scientists and earth scientists to manage the environmental issues we face. Our degrees develop a deep understanding of the major challenges facing people and the planet with hands-on experience on field trips in the UK and abroad.

- Through **Earth and Environmental Science**, you'll become a geologist with a focus on sustainability. Learn about climate changes over geological time, natural hazards, green energy and Earth resources.
- Studying **Environmental Science** will equip you with the knowledge and skills to tackle our planet's major environmental challenges. Specialise in climate, hazards, biodiversity, conservation, and sustainability.
- Our **Geography** degrees let you study both human or physical geography, or specialise in specific socio-economic, ecological or physical aspects of the environment. Tailor your degree through our range of optional modules.
- Gain key skills in Geographical Information Systems (GIS), environmental monitoring, impact assessment, and experimental design, and choose your own research project on a topic you love for your final-year dissertation

Boost your CV

BY CREATING A PROFESSIONAL PORTFOLIO

Industry standard

SOFTWARE IN OUR PC AND MAC DESIGN STUDIOS

OUR JOB IS TO GET YOU READY FOR YOUR CREATIVE FUTURE. UNDER THE GUIDANCE OF OUR EXPERTS, YOU'LL CREATE A PROFESSIONAL PORTFOLIO OF ORIGINAL GRAPHIC DESIGN WORK. SO WHEN YOU GRADUATE, YOU'LL HAVE THE EXPERIENCE YOU NEED TO LAUNCH YOUR CAREER IN THE CREATIVE INDUSTRIES.

Explore the very heart of graphic design – understanding audiences and how to create attention-grabbing messages using text and imagery. Be inspired by experts who've worked across digital media, advertising, game design and web development. And gain vital leadership and professional skills while working as professionals do in a studio environment.

- Use traditional techniques and the latest digital tech to craft compelling visual concepts across diverse platforms and mediums
- Study advanced visual design, creative thinking, typography, the use of colour and composition, web platforms, 2D and 3D design, animation and other evolving media
- Learn how to create visual solutions for specific audiences and purposes, giving you a competitive edge for your future career
- Use industry-standard software in our newly upgraded PC and Mac design labs. We recently invested £250k in our labs to meet the demands of cutting-edge design applications.
- In your final year, you work on a major project in a specialism that reflects your career goals

Why study at Hull?

Our degree is designed to give you an advantage over those with only technical abilities. You'll leave us with the ability to conceptualise as well as implement graphic design solutions. These valuable skills mean you'll graduate ready to enter a range of graphic design-related positions.

Where could this take you?

You could go on to work in a graphic design studio or grab a starting role within an advertising agency. Or you might prefer to enter into private industry.

FOR TEACHING
SATISFACTION²

HULL'S BEEN TEACHING HISTORY FOR NEARLY 100 YEARS, SINCE 1928. UNDER THE GUIDANCE OF OUR EXPERTS, YOU'LL DISCOVER THE DRAMA OF THE PAST, UNDERSTAND THE GREAT CHALLENGES OF THE PRESENT, AND GAIN THE SKILLS TO HELP SHAPE A BRIGHTER FUTURE FOR YOURSELF AND THE WORLD WE LIVE IN.

Join us on a journey to gain historical knowledge, communicated through the latest technology – seeking to tackle today's most pressing local, national and global challenges. We balance the thrill of fresh discoveries with looking at familiar topics, while teaching the analytical skills that employers value.

- Degrees in **History**, and **History and Politics**
- Uncover the historical roots of contemporary social, political and environmental challenges
- Engage with social and cultural history, war and politics, sudden events and long-term change
- Work with local museums, archives and galleries, and take part in voluntary placements with the Hull History Network
- Criticise sources of historical information from newspapers to computer games
- Develop your own ideas through channels such as podcasts and online exhibitions

Why study at Hull?

A perfect 100% of our History research at Hull received the top grade of 4* for research impact.³ You'll benefit from the resources of a city that's steeped in history – with access to the Hull History Centre and the world-renowned Wilberforce Institute, as well as opportunities to get involved in the Hull History Network. And, of course, there's the Brynmor Jones Library – housing more than a million books, journals and periodicals, as well as extensive digital resources drawn from libraries and archives across the world.

Where could this take you?

You'll learn how to analyse complex data and present clear and coherent arguments to diverse audiences, and develop skills for working both collaboratively and independently in essays, presentations and classroom discussions. These are all skills that employers value.

OVER 3 YEARS FOR ACHIEVING GOOD A LEVEL RESULTS³

WE PREPARE YOU FOR YOUR CAREER BY ENCOURAGING CONCEPTUAL AND ABSTRACT THOUGHT. IN OUR MODELLING MODULES, YOU LEARN HOW TO APPLY YOUR MATHEMATICAL AND STATISTICAL SKILLS TO SOLVE REAL-WORLD PROBLEMS.

BSc Mathematics is accredited by the Institute of Mathematics

Why study at Hull?

A degree in Mathematics is a gateway to the critical thinking and problem-solving skills desired by employers from areas as diverse as science and engineering, the financial sector, statistics and data analysis, and programming. At Hull, we pride ourselves on offering courses that are geared towards both fundamental mathematics as well as a diverse array of real-world applications, including skills such as programming in Python and R.

Where could this take you?

Our degrees have a strong career focus, giving you the necessary competencies to succeed in a variety of jobs. When you graduate, you could progress onto **MSc Mathematics** or **MSc Artificial Intelligence and Data Science**.

"As a doctor, you're seeing people at their most vulnerable, so you need to be able to communicate in a way that reassures them. Hull York Medical School really gave me the opportunity to flourish."

Dr Oladunni Adeleye
Hull York Medical School graduate
and practising doctor

Medicine at Hull is taught at Hull York Medical School, a partnership between the Universities of Hull and York. Here, you'll be prepared for life as a doctor through a combination of patient-centred teaching, problem-based learning (PBL), clinical and communication skills led by experienced clinicians, and regular clinical placements.

- **MB BS Medicine (5 years)** combines patient-centred teaching, clinician-led PBL, rigorous academic study and regular clinical experience from week three of your first year
- From your third year onwards, you'll be fully immersed in a range of clinical placements, rotating through different specialisms and locations
- **MB BS Medicine with a Gateway Year (6 years)** is a widening participation initiative designed to facilitate access to Medicine for those from under-represented backgrounds
- The extra year will support your transition from school or college to university, providing an excellent foundation in human biology and clinical skills so that you feel confident entering Year 1

Why study at Hull?

Hull York Medical School is ranked 5th in the UK overall for Medicine.¹ Being a good doctor is about solving problems. That's why we put problem-based learning at the heart of our curriculum. Led by experienced tutors with a passion for education, it offers a lively and interactive way to build your knowledge, while reinforcing what you learn in your lectures and on clinical placement. It allows you to form strong relationships, learn how to communicate effectively in a group, and work as part of a team to tackle and solve problems – skills that will be invaluable throughout your medical career.

Where could this take you?

We pride ourselves on producing confident, compassionate and work-ready doctors. At the end of both the five and six-year courses, you'll receive your MB BS joint degree from the University of Hull and the University of York, which is a primary medical qualification (PMQ). Holding a PMQ entitles you to provisional registration with the General Medical Council as a junior doctor. Medical school graduates continue to train for two years while working as junior doctors in the NHS, before entering specialist training in the area of Medicine they wish to pursue long term.

Boost your CV

WITH WORK PLACEMENTS AT LOCAL LIVE EVENTS

Hit the right note

IN OUR STATE-OF-THE-ART CONCERT HALL

OUR FANTASTIC FACILITIES INCLUDE MIDDLETON HALL, OUR 400-SEAT CONCERT VENUE, SEVERAL REHEARSAL ROOMS, PERFORMANCE SPACES AND PROFESSIONAL STUDIOS. AS WELL AS OUR FLAGSHIP DUALITY RECORDING STUDIO, WE HAVE A 360° AMBISONIC STUDIO.

Musicians in the 21st century must be creative, knowledgeable, adaptable and entrepreneurial. At Hull, you'll develop the skills and knowledge to become the musician you want to be, surrounded by a creative and innovative community and support network, while benefitting from our industry-standard facilities.

- Degrees in **Music**, **Music Production**, **Music (Performance)**, **Music (Popular Music)**, **Music (Songwriting)**, and **Music (Community and Education)**
- Work on major creative projects, both individually and collaboratively, and undertake placements based around your passions and career aspirations
- Gain essential skills for the music industry, with assessments focused on practical outcomes
- From DJs to band members, stage performers to session musicians, our performance-led staff are active in making music themselves
- Use professional kit from SSL, RME, AKG, Sennheiser, Neumann and Sound Devices, plus software including Logic, Pro Tools, Sibelius, FL Studio, Ableton Live, and REAPER

Why study at Hull?

We value partnerships with external music groups, and this helps to enrich the way our music students engage with outside organisations. Partnerships with the Royal Philharmonic Orchestra (RPO), Opera North and Hull Philharmonic among others have opened the doors to experiences at rehearsals and concerts, as well as getting involved in research projects and recording events.

There will also be chances for work placements on live events and projects in and around Hull. Plus, our **BA Music Production** pathway is accredited by JAMES (Joint Audio Media Education Services).

Where could this take you?

Some students set up record labels before they graduate. Others carve out their own careers in the industry. Our graduates go on to become performers, conductors, and orchestral players and managers. They also pursue careers as producers, audio engineers, and live sound engineers, as well as music therapists, teachers and journalists. A degree in music gives you skills and experiences invaluable for the world of work.

Nursing, Midwifery and Health

If you're passionate about making a difference to someone's life, then you've chosen the right place to study. At Hull, you go beyond the classroom and train on the job with health and social care partners right from the start, gaining the skills and expertise you need to become a confident, compassionate and professional health practitioner.

- Degrees in **Midwifery; Nursing (Adult, Child, Learning Disability or Mental Health); Operating Department Practice; Paramedic Science; Physiotherapy;** and **Diagnostic Radiography**, our new 2-year accelerated course
- On many of our courses, you'll spend 50% of your degree on clinical placements and 50% in classes
- **BSc Paramedic Science** was developed with Yorkshire Ambulance Service, and **BSc Physiotherapy** with local healthcare providers, giving you excellent career prospects
- Flexible, part-time entry routes into nursing, health and social care for those without formal qualifications

Why study at Hull?

Hull is one of the top universities in the world to study nursing, according to the latest QS World University Rankings.³ You'll learn in our £28m Allam Medical Building, equipped with a simulated hospital ward, operating theatre, midwifery-led birthing unit, intensive care unit and resuscitation unit. And you won't have to wait to get practical experience – placements start right from Year 1.

Where could this take you?

Most of our graduates go on to work in the NHS, but others find positions overseas, in private practice, in the social services, the pharmaceutical industry, the armed forces, the prison service, or in specialist areas such as drug rehabilitation.

1. (Nursing and Midwifery, Mental Health and Learning Disabilities Nursing, and Perioperative Care) UK domicile full-time first degree leavers; Higher Education Graduate Outcomes statistics, for the academic year 2021/22, published by HESA June 2024.

2. Available to all UK undergraduate students studying Nursing, Midwifery, Operating Department Practice, Paramedic Science, Physiotherapy or Diagnostic Radiography. You don't need to pay this back, and you'll get it as well as your student loan.

3. (Nursing) QS World University Rankings by Subject 2024.

GET ACCESS TO VIPER: THE HIGHEST-SPEC SUPERCOMPUTER AT ANY UNIVERSITY IN THE NORTH OF ENGLAND. AND GAIN THE TOOLS YOU NEED FOR A BROAD UNDERSTANDING OF MODERN PHYSICS IN OUR PHYSICS LAB.

Physics. It's how the world works: from the nanoscale to the cosmological scale. Here, you can help us chip away at the boundaries of knowledge. Our students conduct real investigative research in areas like advanced materials, lasers and space science – tackling questions that no-one else has yet answered.

- Study under world-leading academics in research areas such as condensed matter theory, laser physics and astrophysics
- In your first two years, you'll have weekly tutorials, and throughout your degree there are one-to-one feedback sessions with your tutor
- We'll help you develop the transferable data science skills (for example in Python, one of the fastest-growing programming languages) that employers value
- Part of White Rose Industrial Physics Alliance (WRIPA): a unique employability network
- Our **Physics**, **Physics with Astrophysics**, and **Theoretical Physics** courses include an integrated Masters (MPhys) option to continue your studies into a fourth year⁴

Accredited by the Institute of
Physics

IOP
Institute of Physics

Why study at Hull?

Advances in new energy sources, modern medical techniques, communications and computers: they've all come from physicists with the knowledge to innovate and the skills to deliver. A physics degree at Hull provides you with a thorough grasp of fundamental physics and maths concepts. It also gives you the investigative skills to apply these concepts to new areas of science, technology and enterprise.

Where could this take you?

Recent Hull graduates have gained roles at companies such as Rolls-Royce, Thales, QinetiQ, NPL, Reckitt, Atkins and Clyde Bergemann. Others have secured places on graduate training schemes with the National Grid and the NHS, among others.

- Data scientist
- Laser system engineering
- IT and computing
- Medical physics
- Nuclear engineer
- Telecommunications

Politics and Philosophy

Choose **Politics** and debate the key political issues of the day, from wealth and inequality to the use of violence for political ends. Or choose **Philosophy**, the ultimate interdisciplinary subject, where you'll apply creative and critical reasoning to all subjects and all areas of human enquiry.

- We offer degrees in **Politics, Philosophy, British Politics and Legislative Studies, Politics and International Relations, War, Strategy and Security, History and Politics, and Politics, Philosophy and Economics**
- Our 3-year courses give you the option to study abroad for a trimester
- On our **Politics** degrees, you'll gain critical insights into the domestic and global significance of politics, learning from some of the country's leading experts
- In **BA Philosophy**, you'll learn by actively engaging with profoundly important philosophical questions. As well as ethics, consciousness, free will, truth and justice, you'll explore AI technology, gender, art, science and the environment.
- In **BA Politics, Philosophy and Economics (PPE)**, you'll study public life and modern society from three integrated perspectives

Why study at Hull?

On our **Politics** degrees, you could spend three months or a full year on placement in Parliament – through which we're accredited to teach the unique and highly regarded Parliamentary Studies module – or take part in an alternative politics-related learning placement. We've been teaching **Philosophy** for nearly 100 years, since 1928, and were the first university outside of Oxford to teach the prestigious **PPE** course.

Where could these take you?

So many of our **Politics** graduates now work in Westminster that they've become affectionately known as 'the Hull Mafia'. The way we teach **Philosophy** promotes intellectual integrity and a creative approach to problem-solving: key skills for a fulfilling life and a rewarding career.

WITH AN OPTIONAL
PLACEMENT YEAR
IN INDUSTRY

HERE, IT'S PERSONAL. YOU'LL HAVE YOUR OWN SUPERVISOR AND STUDY GROUP FOR SUPPORT, GUIDANCE AND INSPIRATION. YOU'RE FREE TO EXPLORE AN AREA THAT MOST INTERESTS YOU AND MATCHES YOUR CAREER GOALS, WHETHER YOU WANT TO WORK AS A PSYCHOLOGIST OR IN INDUSTRY.

Want to make a positive difference to people? So do we. Our lecturers are researching the fundamental issues about the human experience, including how we understand the minds of others and how we interact with our environment, as well as the effects of chronic illness and mental health conditions. And thanks to our strong links with the NHS as well as the private sector, we prepare you for tackling tomorrow's challenges.

- Join a University that has been teaching Psychology for nearly 100 years, since 1928
- Choose from **BSc Psychology** or **BSc Psychology with Criminology**
- Explore the science behind human behaviour, higher order mental functions (such as memory, perception and language acquisition), and their underlying brain functions
- Study topics including the psychology of conspiracy theories, artificial intelligence, forensic psychology, and animal behaviour
- We offer the UK's only fast-track route onto a fully funded Clinical Psychology Doctorate³
- Apply for our Research Assistantship scheme and gain research work experience while you study, or study abroad at places including the Netherlands, Hungary, Germany and Norway⁴

Accredited by the British
Psychological Society²

Why study at Hull?

Our research-led teaching covers key areas including cognition, development and neuroscience. You're taught by clinical practitioners, professional psychologists and experts in their field. Our research facilities include a baby lab, a VR lab, eye-tracking lab, animal behaviour centre, brain stimulation labs, and psychophysiology labs.

Where could this take you?

You can pursue a career as a psychologist in a clinical, forensic, neurological, educational, occupational or sports field. You'll also gain a range of transferrable skills – from data analysis to project management – that you can apply to many public and private sector roles, including teaching, marketing and HR.

SOCIAL WORK
BURSARY SCHEME

DAVE MARSLAND, LECTURER IN SOCIAL WORK, HAS FOCUSED ON SAFEGUARDING ADULTS FOR OVER 20 YEARS. IN 2024, HE WAS AWARDED THE UNIVERSITY SOCIAL WORK LECTURER OF THE YEAR AWARD AT THE NATIONAL SOCIAL WORKER OF THE YEAR AWARDS.

If you're interested in a career that will make a real difference in people's lives, **BA Social Work** could be for you. Our range of placement opportunities and expert staff with real-world experience will prepare you for a career as an outstanding social work practitioner.

- Study issues like homelessness, drug and alcohol use, disability and mental health as well as social welfare policies and the safeguarding of adults and children
- Develop the skills to work with adults, children and young people in a range of circumstances, and learn how to safeguard and protect people where required
- Taught by registered social workers, practice partners, social scientists and people with lived experience who bring their research and passion into everything you learn
- Flexible entry routes if you don't meet our entry requirements, including the **University Certificate in Health and Social Care Practice**, and the **Alternative Route into Health and Social Care**

Our Social Work degree is
approved by Social Work England²

Why study at Hull?

Social Work at Hull is ranked 2nd in the UK for Teaching Quality, and 4th for Student Experience.³ We're one of the founding members of the Humber Social Work Teaching Partnership, giving you access to some of the biggest employers of social work practitioners in the area. And thanks to those strong relationships, you'll get a diverse range of high-quality placement experiences located in inner cities, market towns and seaside resorts. This provides you with a breadth of experience that makes you highly employable after graduation.

Where could this take you?

Thanks to our practice placements, you'll clock up hundreds of hours in a professional setting. So you'll have the real-world know-how to back up the theory.

- Social worker
- Mental health practitioner
- Drug practitioner
- Community worker
- Welfare rights advisor
- Youth justice officer

How to apply to Hull

When you apply to Hull, you'll have a team ready to answer your questions every step of the way. From starting your application to the day you secure your place to come here.

Our UCAS Institutional code **H72**

HYMS Institutional code **H75**

UCAS

For most of our full-time undergraduate courses, you apply through the Universities and Colleges Admissions Service (UCAS).

Because most people apply through UCAS, we generally list our entry requirements in terms of UCAS tariff points – commonly earned through A levels, BTECs, T Levels or OCR Technicals.

As a guide, we consider applications with predicted grades totalling 112 UCAS points or above. If you have 80 tariff points or more (but less than 112), you might want to think about a Foundation Year (see page 37).

To register and apply, go to **ucas.com/students**.

UCAS Extra

If you've used all five of your UCAS choices but not had any offers, UCAS Extra lets you make one more choice.

Contextual Offers

We understand grades alone do not always reflect potential and we recognise there are a range of challenges you may face that can have an impact on your academic performance.

We welcome applications even if you don't meet the standard entry requirements. We then use Contextual Offers to consider the full breadth of your background, achievements and ambition to determine your capability to thrive in your chosen field.

Typical entry requirements

| UCAS points | Example A Levels | Example BTEC |
|---------------------------------------|------------------|--------------|
| <i>Full-time undergraduate degree</i> | | |
| 112 UCAS points | BBC | DMM |
| 120 UCAS points | BBB | DDM |
| 128 UCAS points | ABB | DDM |
| <i>Foundation year</i> | | |
| 80+ (but less than 112) UCAS points | CDD / BCC | MMP / MMM |

Qualifications we accept

- A levels
- AS levels
- Advanced
- Apprenticeships
- BTECs
- T Levels
- EPQs
- International
- NVQs*
- OCR Technicals*

* We consider these qualifications on a case-by-case basis.

Calculate your UCAS points

UCAS.COM/TARIFF-CALCULATOR

Mature student?

You can apply in the same way through UCAS. And don't worry about qualifications – your original education plus your career experience might be enough.

International student?

To find out more about how to apply as an international student, please go to page 76 and visit hull.ac.uk/international. And for independent advice, please see ukcisa.org.uk.

HULL.AC.UK/UGAPPLY

Your guide to fees and funding

How much does it cost to study an undergraduate degree?

Tuition fees listed above are for 2025/26. Fees for 2026/27 were not announced at time of printing. Visit hull.ac.uk for the most up-to-date fees.

What loans are available?

There are two types of loan available to students from England:

Tuition Fee Loan

- Covers the full cost of your course fees (currently £9,535 per year)¹
- Paid straight to the University
- You won't have to pay any of it back until you're earning above the repayment threshold (currently £25,000)
- After 40 years, any remaining debt is written off – regardless of what you still owe

Maintenance Loan

- Helps with your living costs
- How much you can get depends on things like where you live and your household income
- Paid straight into your bank account in three instalments, at the start of each term
- You won't have to pay any of it back until you're earning above the repayment threshold (currently £25,000)
- After 40 years, any remaining debt is written off – regardless of what you still owe

1. Maximum tuition fees are set by the Government. The amount you pay may increase each year, in line with inflation.

How much Maintenance Loan am I eligible for?

This depends on your family's income and where you'll be living while you're at university.

The table to the right shows how much students could receive to help cover their living costs in 2024/25.

| Household income | Living away | Living at home |
|------------------|-------------|----------------|
| £25,000 or less | £10,227 | £8,610 |
| £30,000 | £9,497 | £7,887 |
| £35,000 | £8,766 | £7,163 |
| £40,000 | £8,035 | £6,440 |
| £45,000 | £7,304 | £5,716 |
| £50,000 | £6,573 | £4,993 |
| £55,000 | £5,842 | £4,269 |
| £60,000 | £5,111 | £3,790 |
| £62,347 or above | £4,767 | £3,790 |

How much will I pay back?

Just to recap, you don't have to pay back anything until your salary goes above the repayment threshold, which is currently £25,000. When that happens, the amount you're earning determines what your loan repayment will be. Any repayments you make go towards paying off both your Maintenance Loan and Tuition Fee Loan – you don't have to make separate repayments.

| Annual income | Monthly payment |
|-----------------|-----------------|
| £25,000 or less | £0 |
| £30,000 | £37.50 |
| £35,000 | £75.00 |
| £40,000 | £112.50 |
| £45,000 | £150.00 |
| £50,000 | £187.50 |

Your money goes further here

We are the UK's least expensive university city, according to Finder's student living cost calculator.² Cheaper than Leeds, Lincoln, Manchester, Liverpool, Newcastle, Nottingham, Sheffield, Derby, Birmingham, and more.

Thousands of jobs and paid placements

Our internship programme includes flexible options you can do alongside your studies. We advertise thousands of jobs every year, and can give you advice on how to be successful in applications and interviews.

International students

Choosing a university is a life-shaping decision, especially for international students moving further away from home. We believe we have the perfect combination of heritage and high-tech, in an inspiring and nurturing place, to help you truly flourish.

Changing lives since 1927

A degree from Hull is a hallmark of quality. As one of the oldest universities in England, we have a reputation for delivering life-changing research and discovering new talent.

A global community of staff, students and alumni from over 100 countries

One campus, one community

Everything you need to live, study and socialise is on one safe and beautiful campus, rather than being scattered around the city. And everywhere you look, you will see our commitment to your future. State-of-the-art labs, professional performance spaces, a world-class library and modern accommodation.

Join one of our webinars

Our regular online events give you the chance to find out more about our courses, applying to Hull and what it's like to live and study in the UK.

Go to **hull.ac.uk/meet-with-us** for more details.

Meet us in your country

Our representatives regularly visit university exhibitions overseas to meet potential students. To find out more, visit **hull.ac.uk/country**.

Entry requirements

You can find typical entry requirements at hull.ac.uk/international.

Or email us at global@hull.ac.uk to find out more.

English language qualifications

We accept a range of English language qualifications, including IELTS, TOEFL, Cambridge (Advanced English/Proficiency/First Certificate), A level, International Baccalaureate, Indian Standard XII, and WAEC.

English language programmes

We run a variety of pre-session courses to help you prepare for your studies at Hull. To find out more, please visit hull.ac.uk/efl.

Foundation programmes

If you do not meet our entry requirements, you may be able to join our foundation programme, ONCAMPUS Hull, for Business, Law, Politics, Science, Engineering, Arts, Culture, and Education courses. When you successfully complete it, you are guaranteed entry to a relevant University of Hull degree programme. To find out more, go to oncampus.global/hull.

How to apply

You can apply through the UK's centralised admission service (UCAS) at UCAS.com.

You can apply directly through a University of Hull representative in your country. To find a representative, visit hull.ac.uk/country and select your country.

NOTES

- * A Foundation Year offers an alternative entry route onto our degree programmes and entry requirements are different; a typical offer is 80 UCAS points but we do review each application on a case-by-case basis. See page 33 or contact our Admissions service for further details.
- ^ Upon successful completion of this foundation year, you can either continue with the degree you originally applied to study, or join Year 1 of any other undergraduate degree that has the same foundation year as an entry route (subject to meeting any other requirements for that degree).
- + This degree is delivered by Hull York Medical School (HYMS). Visit hyms.ac.uk for more information.
- § This is a new degree that is currently pending final validation. This means that we intend to offer this programme, but it hasn't received final University approval yet. Please see our website for the latest information about this course, or contact our admissions team.
- a. Your points can be from any qualification on the UCAS tariff, but at least 80 points should be from A levels, or a combination of appropriate Level 3 qualifications.
- b. Your points should be from three A levels, or a combination of appropriate Level 3 qualifications.
- c. Your points should be from three A levels (excluding General Studies), or a combination of appropriate Level 3 qualifications.
- d. You also need A level Biology and Chemistry at grade B or above (or equivalent), including a Pass in the practical element in Chemistry for reformed A levels completed in 2017 or later. Applied Science may be considered.
- e. You also need A level Biology or Chemistry at grade C or above (or equivalent), including a Pass in the practical element for reformed A levels completed in 2017 or later. Applied Science may be considered.
- f. You also need A level Biology at grade C or above (or equivalent), including a Pass in the practical element in Biology for reformed A levels completed in 2017 or later. Applied Science may be considered.
- g. You also need A level Maths and Physics at grade B or above (or equivalent), including a Pass in the practical element in Physics for reformed A levels completed in 2017 or later.
- h. You also need A level Maths at grade B or above (or equivalent).
- i. You also need A level Maths at grade C or above (or equivalent).
- j. You also need A level Chemistry at grade B or above (or equivalent), including a Pass in the practical element in Chemistry for reformed A levels completed in 2017 or later. Applied Science may be considered.
- k. You also need A level at grade C or above (or equivalent) in one of the following subjects: Applied Science, Biology, Chemistry, Environmental Science, Geography, Geology, Maths or Physics. For A level Biology, Chemistry and Physics, this must include a Pass in the practical element for reformed A levels completed in 2017 or later.
- m. You also need A level at grade B or above (or equivalent) in one of the following subjects: Biology, Human Biology or Physical Education. For A level Biology, this must include a Pass in the practical element for reformed A levels completed in 2017 or later.
- n. You also need A level Music or Music Technology at grade C or above (or equivalent).
- o. You should be at a minimum of Grade 7 standard in your instrumental or vocal studies. Musicians who can demonstrate performance at this level but who have not taken practical examinations can also apply.
- p. You must also have GCSE Mathematics, English and Science at Grade C/4.
- q. You must also have GCSE Mathematics, English Language and Science at Grade C/4.
- r. You must also have GCSE Mathematics and English Language at Grade C/4.
- s. You must also have GCSE Mathematics at Grade C/4 or Level 2 Functional Skills in Maths.
- t. You must also have GCSE English Language/Literature at Grade C/4.
- u. You must also have GCSE Mathematics, English and Science at Grade C/4. The Level 4 Associate Ambulance Practitioner qualification is acceptable along with the relevant GCSE English & Maths at grade C/4.
- v. You must have a 2:2 Honours degree or better in a non-law subject.
- w. You will need to be on placement with Level 5 sector-specific qualifications, such as an early years sector-endorsed foundation degree/HND, plus some work experience with 0-5 year olds; or a foundation degree and substantial experience of working with 0-5 year olds; or a vocational degree plus substantial experience of working with 0-5 year olds in a non-educational role.
- x. You will need a minimum of two years of childcare experience.
- y. Our standard offer is AAA at A level, including Biology and Chemistry. Resits are accepted if BBB is achieved in the first sitting. You must be predicted AAB or above to apply. You must also have 6 GCSEs at level 9-4 / grade A*-C or equivalent, including English Language and Maths at Grade 6/B or above. You will need to achieve Band 1, 2 or 3 in the Situational Judgement Test part of the UCAT in the year of application. You can find our full entry requirements, selection procedure and details of contextual offers at www.hyms.ac.uk/entry-requirements.
- z. Our standard offer is BBC at A level, with Bs in Biology and Chemistry. Resits are permitted. You should not be predicted or have achieved higher than ABB to apply. You must also have 5 GCSEs at level 9-4 / grade A*-C or equivalent, including English Language and Maths at Grade 6/B or above. You will need to achieve Band 1, 2 or 3 in the Situational Judgement Test part of the UCAT in the year of application. You can find our full entry requirements, selection procedure and details of contextual offers at www.hyms.ac.uk/entry-requirements.

Glossary

Alumni

Alumni are graduates of the University. Once you've graduated, you'll join them as part of our global network.

Bachelors degree

A full-time Bachelors or undergraduate degree usually lasts three or four years. All ours are 'honours' degrees: a higher academic standard than an 'ordinary' degree.

Clearing

Clearing is how people without a university offer can apply for any remaining places between July and September. See page 70.

Credits

To gain your degree, you must pass with enough credits. Most of our modules are worth 20 credits, and you can earn 120 credits each academic year.

Deferred entry

Want to take a year out before uni? We're happy to accept deferred entry applications through UCAS. Contact us to find out more.

Firm choice

When you receive university offers, you nominate your preferred one: your 'firm choice'. You can also pick a second 'insurance' option.

Foundation year

An extra year of study at the start of a course, designed for students who don't meet the requirements for direct entry onto one of our degrees.

IELTS

The International English Language Testing System. A standardised English language test for non-native speakers. IELTS covers listening, reading, writing and speaking.

Integrated Masters degree

Four-year degree that includes a postgraduate year. So, instead of earning a BA, BSc or BEng, you leave with a higher qualification like an MChem, MPhys, MMath, MBus, etc.

Joint combined honours

A degree that covers two subjects, with your time split equally between them, like History and Politics, Business Management and Marketing, etc.

Major/minor

A degree where you specialise in one subject (major) while gaining insight into another (minor), like Psychology with Criminology, Law with Politics, etc.

Mature student

A mature student is anyone aged 21 or over when starting their undergraduate degree.

Modules

Each degree is made up of modules. Some span a year, others one trimester. Some are core, others optional. Each is assessed and your average score is your result for the year.

Offer

Received an offer from us? Congratulations! If it's conditional, you can still make us your firm choice and we'll confirm your place once you meet certain entry requirements. If it's unconditional, you can secure your place straight away by accepting our offer as your firm choice.

Part-time

Part-time students take fewer modules each year. So you can take a part-time degree over a longer period than the full-time equivalent.

Seminars and tutorials

Delivered in smaller groups than lectures, seminars offer you the chance to discuss, debate, present and take part in group work. Tutorials are usually one-to-one with your lecturer.

Single honours

A single honours degree focuses entirely on one subject.

Trimester

Academic years are divided into three trimesters, with exams at the end of each trimester.

Get in touch

The (not so) small print

The information in this brochure is provided by the University of Hull, and is for general information purposes only.

We do everything possible to keep the information up to date and correct. But we make no representations or warranties of any kind, expressed or implied. Whether about the completeness, accuracy, reliability, suitability or availability with respect to the publication or the information, products, services or related graphics contained in the publication for any purpose. Any reliance you place on this information is strictly at your own risk.

We're continually adapting and evolving our courses so that we meet the changing needs and expectations of our students and employers. We check that our programmes reflect national benchmarks; that they enhance our students' skills; that they're relevant to you and to your potential future employers; and that they meet the demands of regulatory bodies (for example, to earn accreditations that are essential in some subjects and for some professions).

What this all means is that the course information in this guide is correct at the time of going to print. But – for the reasons we outlined above – some of our courses could still change before you start University in September. You can find all the latest information on the course pages of our website. Or if you have any questions or need further info, you can contact our admissions team at study@hull.ac.uk

In no event will we be liable for any loss or damage. Including, without limitation, indirect or consequential loss or damage. Or any loss or damage whatsoever from loss of data or profits arising out of, or in connection with, the use of this publication.

For the latest on our programmes, please go to the course pages on our website.
